LoveToKnow Media Application

LoveToKnow Media Application

File: **Upload the Text File**

Choose File	A.txt

```
3
19
B.txt
50
```

Calculate Sum

Sum of the Contents of A.txt File

A.txt - 111

LoveToKnow Media Application

File: **Upload the Text File**

Choose File	B.txt

```
C.txt
27
```

Calculate Sum

Sum of the Contents of B.txt File

B.txt - 39

LoveToKnow Media Application

File: **Upload the Text File**

Choose File	C.txt

```
10
2
```

Calculate Sum

Sum of the Contents of C.txt File

C.txt - 12

LoveToKnow Media Application

File: **Upload the Text File**

Choose File	D.txt

```
3
19
B.txt
B.txt
C.txt
50
```

Calculate Sum

Sum of the Contents of D.txt File

D.txt - 162

LoveToKnow Media Application

File: **Upload the Text File**

Choose File   E.txt

```
3
19
E.txt
B.txt
50
```

Calculate Sum

Sum of the Contents of E.txt File

The file name E.txt is found in the file. It will result to an infinite loop. Please edit the file File

➔ In the case of E.txt file which contains:
3
19
E.txt
B.txt
50

The file E.txt is found in the list of files of the text document. The application will detect it and stop the operation since it will result in an infinite calculation loop. The result of the application is shown above.

➔ In order to execute this project on any server, all the files should be found in the same directory name files in the root of the project.

Please contact me for any kind of clarification if need be.
